MESSAGE

Since its establishment in 1902 by some British people at Uluberia in pre-independence Bengal and in its nascent state, Uluberia Institute and Library, has, over the years, under the aegis of some aholic and enthusiasts, has advanced progressively forward leaving behind a trail of activities multifoliate and multivalent and holding aloft the mottos of 'mankind, society and culture'. The young ones are urged to fare forward, forge ahead and contribute their mite and main to the development of Uluberia, Howrah by the sweat of their brow and heart.
