MESSAGE

Today is a day of great glory. Our prolonged wish for the opening of Uluberia Institute and Library's Website has been transformed into reality. With the celebration of the birth days of scholars, we also observe various cultural programmes and perform different social duties as well. Let's move forward with the library on a better path-focus on enhancing digital services, leveraging our library as a community hub, forming strategic partnerships, and innovating with new programming.

My sincere regards to all.

Barun Kumar Samui.
