### **MESSAGE**

*The institution that emerged in 1902 as the Victoria Institute and Library has, after bearing witness to more than a century of history, become the Uluberia Institute and Library, standing proudly at the heart of Uluberia town. What was once primarily a meeting place for the bureaucracy has today become one of the most well-known centres of Uluberia's cultural landscape, and being associated with it is a matter of great pride. This institution is considered a hallowed ground for history, education, culture, art, and literature in Uluberia.*

*We hope that in the days to come, more vibrant and robust cultural activities will be organized, and more far-reaching ideas will flourish. We wish for this cultural hub to become a unique beacon of the cultural environment for the entire subdivision and district in the future. Heartfelt wishes to the managing committee and all its members.*

Manas Kumar Mandal.
