### MESSAGE

*At the vibrant heart of Uluberia stands the Uluberia Institute and Library—a century-old sanctuary where art, learning, and culture are woven into one enduring tapestry. Nurtured through the fellowship of Uluberia’s many enlightened minds and eminent personalities, this institution has blossomed into a living symbol of our shared social and cultural values.*

*In its early days, it thrived on two guiding streams—the joy of cultural expression and the pursuit of knowledge through reading. Over time, it has grown into a dynamic centre, embracing nearly every branch of art, society, and culture, now guided by a working committee of eight dedicated sub-committees.*

*This institution opens its doors to all who cherish creativity. It stands as a lasting abode for the fine arts, a nurturing ground for the younger generation, a source of inspiration for students’ talent, and a beacon for all who seek the treasures of intellect and imagination.*

*Let us come together, and join hands with this eternal institution, as it continues its timeless journey through the stream of history.*

*Shubhamastu — May auspiciousness prevails.*

Siddhartha Das.
